For further information contact KAON on **07 3180 1470** or info@kaon.com.au

Bolt Torque

| DIAMETER (mm) | 5mm | 6mm | 8mm | 10mm | 12mm |
|--------------------|------|------|-------|-------|-------|
| NEWTON-METRES (Nm) | 5 Nm | 9 Nm | 22 Nm | 44 Nm | 77 Nm |

Let's get to work.

Preparation

1. **If you've already installed the Cargo Barrier:** uninstall the Cargo Barrier handle brackets from the rear grab handles, and replace with the new Barrier Shelf handle brackets, as pictured.

If you haven't installed the Cargo Barrier yet: install the Barrier Shelf handle brackets as pictured. The handle brackets included with the Cargo Barrier are not required, so set these aside.

Then follow steps 3-5 in the Cargo Barrier instructions before completing the remaining steps here.

Installation

2. Attach the Cargo Barrier to the Handle Bracket, using the knob included with the Cargo Barrier.
3. Loosely attach the Shelf to the Cargo Barrier using three of the supplied M6 bolts and nuts.
4. Attach the Shelf Brackets to the Handle Bracket using M10 dome head bolts.
5. Attach the Shelf to the Shelf Bracket using the remaining supplied M6 bolts and nuts.
6. Once the shelf is in the desired position, tighten all bolts securely.

NOTICE

We cannot confirm compatible fitment of this shelf with child restraints, due to the number of possible variations. Whilst it may work with your configuration, we recommend the use of a seat belt protector where any contact occurs between any seat belt or restraint and the shelf.

Local Knowledge & Assistance

We know half the fun of building your dream 4x4 is getting your hands dirty. But we also know that sometimes, things don't go to plan. If in the pursuit to build the ultimate setup you find yourself off-track, we're here to help you get unstuck.
