NEWTON-METRES (Nm)	6 Nm	10 Nm	15 Nm	22 Nm	35 Nm

Let's get to work.

Installation

1. Locate where you want to position the paper towel, ensuring clearance to anything else in your setup.

   The Holder is compatible with the signature KAON mesh found on Shelves, Molle Panels, Dividers and Rear Window Baskets, and runs across the mesh (horizontally).

2. The holder fits standard 22cm AU paper towel rolls. Position them four holes apart, as pictured.

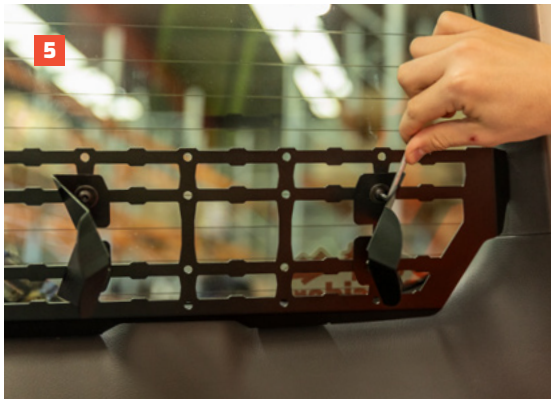
   Using a roll will make it easier to identify the correct spacing between the brackets.

3. Loosely attach both brackets with the provided M6 hardware so that the points formed by the folds face each other.

4. Confirm the position of the brackets is correct. The towel should be able to be pushed in between the two brackets, with some resistance.

5. Tighten all bolts until secure.

6. That's it, you're done! Now all that's left is to add your towel and go.



Local Knowledge & Assistance

We know half the fun of building your dream 4x4 is getting your hands dirty. But we also know that sometimes, things don't go to plan. If in the pursuit to build the ultimate setup you find yourself off-track, we're here to help you get unstuck.
