Installation

1. Before proceeding with these instructions, ensure you have completed the installation steps for your X700 Underbody Guards.
2. Remove the front two bolts connecting the Front Guard to the crossmember. The rear bolts will hold the Front Guard in place.
3. Stack the supplied 25mm aluminium spacer and factory spacer, and sandwich between the Front Guard and the bullbar splash guard. Secure the position of the spacers by threading through the supplied M8 bolt into the crossmember, as pictured. Ensure you use also re-use the factory washer on the exterior side.
4. Reattach the upper bolts connecting the splash guard bolts to the bullbar.
5. That's it - you're done!
